Grout Mixer:

- Light weight – all components can be easily lifted by one person
- 150 litre thin grout capacity. 100 litre thick grout capacity – able to mix up to 8 x 20kg bags of thick grout
- Fast and efficient mixing that minimises production of lumps or dry grout build up
- Powerful, light weight motor:
 - 454 Nm (335 ft-lb) stall torque
 - 200 rpm
 - 42 litre/s (90 cfm) @ 689kPa (100 psi) air consumption
 - 13.5 kg
 - 86 dB(A)
- Motor mounting frame is also a manifold for air reducing the number “T” pieces and hoses needed
- Open pumping chamber will pumpdown to 20mm. Easier to clean with no build up
- Can be supplied with wheels for mobility
- Motor and frame can be inverted for storage or transport
- Has been suggested for a design award
